

End of Life Notice for Software

Odyssey TPS Versions 4.7.xx and 4.8.xx

July 16, 2015

Dear Valued Odyssey Customer:

This letter provides notification of the end of engineering and support for Odyssey versions 4.7.xx and 4.8.xx, effective **February 29, 2016**. The decision was influenced by the end of life support for the Windows XP operating system in April 2014. PerMedics is unable to guarantee product support when the underlying operating system is no longer supported.

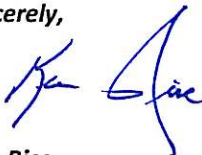

PerMedics encourages you to begin migration plans to the most current Odyssey full release (version 5.0) as soon as possible to avoid any interruption in service and receive recent product improvements. Version 5.0 requires workstations with Win7/64 installed. Odyssey version 5.1 was recently released for one clinical site and will be available to other sites by mid-2016. For customers having a current Support Agreement there are no additional fees for the upgrade. For customers without a current Support Agreement please contact your local Odyssey sales distributor.

China - Echo Yang, 86-21-5197 8091 echoyang@orient-sh.com

If you have any questions regarding this End of Life notice, the software updates, or require any additional information, please contact PerMedics' Customer Support, at 1-877-473-7633 or support@permedics.com.

Thank you for your cooperation in this product transition. We are very excited about the new Odyssey product releases and look forward to helping you get the most out of your Odyssey Treatment Planning System.

Sincerely,

Ken Rice
